Mr. John Coffey
Deputy Director for Support
Central Intelligence Agency

Dear Jack:

Some little time back I talked to Angus Thurmer about our Washington Workshops program, and he suggested that I correspond with you.

We have been in operation for five years and have been increasing in size as the program becomes better known. Right now we have 150 high school students on the campus and will have another group beginning July 23rd.

The students in the Workshops are impressive. They come from all parts of the country and from dependent schools overseas and are truly "geared up" to find out about their government. We push them very hard. They leave tired but impressed. They go back to their high schools with better understanding and often a different image than the one with which they started.

Would the Central Intelligence Agency be interested in participating as do others of the Executive Branch? We could bus to Langley as we are doing this Friday to Defense, Labor and Commerce.

Please let me know your thoughts about this program. I believe your participation would be good for CIA as well as for the Workshops students.

Please call me if you need further information. I am enclosing the prospectus for this year and the current program and roster.

Very truly yours,

Bill
